## TWO-THIRDS RULE IS BAR TO M'ADOO

Former Treasury Chief Will Enter Race If "Majority" Method of Selection-Can Be Forced on the Convention

Bosses of East Reported to Combine to Defeat Plans to Nominate Any Advocate of the Wilson Administration

SAN FRANCISCO, June 22.—A plank pledging the Democratic party, if returned to control of Congress, to have the Volstead act "liberalized" so as to permit the manufacture and use of wines and beer under stringent regulations, while at the same time approving the abolition of the saloon, will be insisted upon by the supporters of the "mole" candidate of Governor Edwards of New Jersey, it was announced at the Edwards headquarters here today.

By AD SCHUSTER

SAN FRANCISCO, June 22.—If the two-thirds rule is overturned in the convention William Gibbs McAdoo will have himself once more as a candidate. This is the word circulated in the lobbies and committee rooms of the Democratic convention today.

The story has it that McAdoo is assured that a strongly knit group of bitter-end opponents to himself, his government ownership idea and the "crown prince" argument have tied up more than one-third of the votes, and, under existing rules they would make his defeat certain.

This, it is said, is the reason for the withdrawal and the reason for the other apparently contradictory developments. With committee leaders holding that the rule will not change there is still the chance that it will be altered on the floor. It is no more than a time-honored tradition at best.

McAdoo still says he is out of the race. A report from New York today says that McAdoo sent a telegram to Dr. Burris Jenkins last week insisting that he not be placed in nomination at the Democratic convention at San Francisco.

It is known that McAdoo has telegraphed to the St. Francis Hotel the following cryptic and baffling message: "Cancel my apartments but hold." Whether the son-in-law of the President means that he would leave the apartments in case he should change his mind, or whether he would turn them over to political friends is unknown to the hotel men.

JENKINS FAITHFUL TO HIS FIRST CHOICE

In a statement issued to the Kansas City Post, Jenkins says: "Thomas B. Love, national Democratic committee member, has called me over long distance telephone from Pueblo Monday night while en route to San Francisco, and said: 'I've traveled west from Kansas City with the Alabama delegation and eighteen of the twenty-four delegates favor putting McAdoo in nomination, consent or no consent. The former treasury chief is the only man in the country who is sure of victory. McAdoo must, they insist, be nominated.'"

"Someone without doubt will put him before the committee. Whether the writer does so or not the country might just as well understand first and last that there is no stopping the attempt to put McAdoo across as the Democratic presidential nominee."

FOUR CANDIDATES OPEN HOTEL HEADQUARTERS

In the various hotels today the tents of the ambitious are being pitched. Cox headquarters, hitherto kept under the hat of Edmund H. Moore were established in Room 2019, Palace Hotel and across the aisle and a little ways down the staff of Governor Edwards moved in with literature, buttons and views regarding alcoholic content. On the strength of a wild rumor that everything connected with Edwards was wet a long line of thirty delegates only to meet with disappointment.

Senator Owen and A. Mitchell Palmer have headquarters at the St. Francis. Owen has been in the city for some time and the attorney general is expected Friday.

## Judge Brown To Quit Bench

JUDGE EVERETT J. BROWN, Jurist Will Resume His Private Practice on December 31

Rumors prevalent for weeks that Superior Judge Everett J. Brown was planning to return from the office were confirmed today when Judge Brown announced he had determined not to be a candidate for re-election, but would engage in the practice of law in this city.

Judge Brown was appointed superior judge in 1914, when the late Judge Henry A. Melvin, who the latter was named as a member of the Supreme Court. He was elected to the position a few months later.

During his term as judge, Judge Brown has been elected to the position of president of the Bar Association, and has served nearly two years, following a term of four years as deputy attorney general under District Attorney John J. Allen. His present term expires December 31 of this year.

THREE JUDGES TO BE CANDIDATES

The decision of Judge Brown not to run for re-election has given three of the incumbent jurists to come before the people for re-election. Presiding Judge T. W. Harris, Judge E. C. Robinson and Judge James G. Quinn. A number of other candidates are expected to contest these candidacies.

Judge James J. Jerome, who was a candidate two years ago, after serving for a few weeks during an unexpired term, to which he had been elected already, has announced that he will be a candidate, and Police Judge George Samuels is also expected to be in the race. District Attorney Harris' name has also been mentioned.

Judge Brown with the exception of Presiding Judge Harris, is the oldest judge in the county. He is regarded as one of the ablest jurists in the state. Prior to his entrance into the office of the district attorney he practiced law in the office of former Secretary of the Navy Victor H. Metcalf.

The following is Judge Brown's statement:

WANTS TO RESUME PRIVATE PRACTICE

"My term of office as judge of the Superior Court of this county expires with the close of this year, and, after giving the matter very careful consideration, I have determined not to be a candidate for re-election. For thirteen years I have been engaged in public service in this county, four years as a deputy district attorney, and I am now in the office of former Secretary of the Navy Victor H. Metcalf. It is indeed difficult for me to express my very deep appreciation of the treatment that has been accorded to me during the entire period of my public service by the people of this county. My determination to return from the bench at the close of my term is due to my desire to again engage in the practice of law in this city. In announcing my intended retirement from the bench to take up the practice of law I want to thank the people of this county for the support that has been accorded to me and the confidence that has been placed in me as a public official."

Teamsters Call Off Strike; Half Demand Granted

In a compromise agreement entered into by the county's employers and the teamsters, the latter called off the strike at 11 o'clock today.

The original demands were for \$1 a day, but when the Merchants and Manufacturers Association told the strikers that unless they accepted the 50 cents, they would declare an open shop, the union men compromised.

The differences of the employers and employees were settled quite amicably at a meeting which lasted scarcely an hour.

Heir of Rumania Is Guest of Japanese

BY UNITED PRESS LEASED WIRE TO TRIBUNE. Crown prince of Rumania, arrived today at Osaka.

## 'PARLORRED' ACCUSATION TO FEEL FIRST OF U.S. LAW

New Alien Exclusion Act to Furnish Lever to Curb the Activities of Radicals to Foment Trouble and Riots

"Society Parasites" Who Urge Others to Commit Crimes Will Be Rounded Up Without Delay, States Decoto

The doom of the parlor Bolshevik is sealed. The Department of Justice says so, Alameda county official says so and Berkeley and Oakland officials say so. As a result of the ultimatum which these several authorities delivered today consternation has seized upon the several parlor Bolsheviks of the Bay Area. Propagation of revolutionary ideas will meet from now on with more than frowns from governmental agencies. The new ideas of lightening in lowly districts or in the spacious halls of effete Berkeley or Oakland hillside homes.

THE PARLOR BOLSHEVIST

The parlor Bolshevik will continue to have his sayings, but he will have to keep them to himself. Propagation of revolutionary ideas will meet from now on with more than frowns from governmental agencies.

## ACCUSATION IS DEERED BY M'DONOUGH

Bail Broker on Witness Stand Makes Sweeping Disclaimer of Evidence Introduced by the State in Perjury Trial

Calm and Faultless of Dress, Defendant Relates History of Catterini Release and His Relations With Riccardi

SAN FRANCISCO, June 22.—Taking the stand in Superior Judge Frank Griffin's court today in his own behalf, Peter McDonough bail broker charged with perjury, categorically denied practically every accusation of importance brought against him by witnesses for the state, confirming his testimony in what the defense believes to be only minor essentials.

MANIFESTING the utmost composure and faultlessly attired, McDonough was the picture of a man calmly disclosing his participation in bringing about the release of a defendant, and his own history and how he received his percentage on the bail money he put up for this defendant and to what extent he was affiliated with C. Vincent Riccardi, the witness for the state.

McDonough's testimony was a complete denial of the charges against him, and he was calm and faultless of dress.

## Moonlight Changes Girl's Mind at Sea; Canada, U.S. Bar Her

(By Associated Press) NEW YORK, June 22.—Immigration authorities at Ellis Island for the second time within six weeks faced today the problem of straightening out a "love triangle" born of moonlight nights on the Atlantic.

Miss Nell Butler, a young English woman of 22, begged them to give her her freedom at least long enough to marry Captain Paul Miller of the British army, who in a three-day courtship made her forget the Canadian officer whom she had intended to wed when she sailed ten days ago for Halifax. Canadian authorities refused to permit Miss Butler to marry the Canadian officer, but to marry the Englishman and to sail on the steamer "Caronia" bound for England via New York.

Captain Miller wireless her to stop at New York, whether he was hurrying by train. When she stopped, the Ellis Island authorities took her in charge.

When she was called before Justice H. Davis this morning, D'Aleria appeared without counsel and pleaded guilty. Justice Davis, however, was not satisfied with the plea alone, and said that D'Aleria would be held until evidence in the case would be taken and sentence pronounced. The case was continued until tomorrow.

SAYS HE FRAMED SHOP GIRL

Count D'Aleria was arrested in Los Angeles yesterday afternoon on complaint of his wife, now suing for divorce in Los Angeles. He was returned to San Diego this morning.

Count D'Aleria and a candy store girl were together in an apartment here on June 12.

## CAMPAIGN TO ELECT G.O.P. MEN OPENS

From East to West Orders Go Forth to Republicans to Get in Action to Insure Victory for the Party Nominees

Notification Day Is Fixed for July 22; Harding Praised as Man and Good Citizen by Governor Wm. D. Stephens

WASHINGTON, June 22.—Senator Harding, the Republican presidential candidate, told a delegation of suffragists today that he could not with propriety attempt to force any state to expedite action on the woman suffrage amendment, but would recommend ratification if any state authority sought his opinion.

WASHINGTON, June 22.—The Republican national campaign today swung into action throughout the country.

Before coming to his offices in the senate office building, the senator's attention was called to the public feature of the campaign. Careful plans are being laid for the education of the voters on the policy to be pursued by the Republican party in the coming campaign.

## Panic and Wreck Follow Trail of Quake Series In Los Angeles Region

"Fault" in Earth Cause of Quake, Claim Experts

Laymen familiar with causes of earthquakes in this State ascribe last night's disturbance in Southern California to a slipping of the strata in the principal geological faults extending along the Coast Range mountains from a point on the Northern California coast about 200 miles north of San Francisco to the Gulf of Lower California.

This fault follows the coast line closely for a distance of about 100 miles south of San Francisco, when it swerves inland approximately twenty miles and gradually extends further eastward traversing Los Angeles, Riverside and San Diego counties.

Other distinct geological faults are located in what is known as the peninsula section, comprising San Francisco and San Mateo counties. These are known respectively as the San Bruno, San Andreas and Pilarcitos faults. The San Andreas fault is believed by scientists to have caused the 1906 earthquake in San Francisco.

## ERIN'S RIOT DEATH TOLL IS GROWING

BY INTERNATIONAL NEWS SERVICE

LEASD WIRE TO TRIBUNE

DUBLIN, Ireland, June 22.—One policeman was killed and two were wounded when a party of five was ambushed by Sinn Feiners at Clonagh today, said an Exchange Telegram dispatch from Dublin.

From Belfast comes word that Assistant Inspector General Roberts of the Royal Irish Constabulary was shot in the head and his chauffeur wounded when they were attacked with revolvers and bombs by assassins who were hiding in ambush.

These to the machine returned to a fire. Roberts was en route to Dublin.

ANOTHER DEATH ADDED TO LIST

LONDON, June 22.—(By the Associated Press)—Civil war continued throughout this city today with one more death bringing the total list to eight.

Troops were protecting streets this afternoon, but enough fighting was going on to terrify the citizens and keep them in doors.

General suffering is expected if delivery of foodstuffs are not retained soon.

Cross channel sailings have been suspended. Several boats are lying up in the harbor awaiting an opportunity to discharge.

The promised military reinforcements had not arrived late today.

During the night barricades were thrown up by both factions.

RIVAL FACTIONS

Crowds of the rival factions today marched about carrying arms openly.

One crowd wrecked a saloon and what innocents they did not drive were driven into the street.

The police charged several times. The e was much firing but no serious casualties.

Firing was resumed in several parts of the city today.

A comparatively quiet night. Several persons were killed in the morning here yesterday and scores were more or less seriously injured.

Military forces patrolled the streets during the night.

LONDON, June 22.—Andrew Bonar Law, the government spokesman, today declared in the House of Commons that he considered there was an adequate military force in Londonderry to deal with the situation.

This view was also held by the chief secretary for Ireland, Mr. Birrell.

ASSASSIN SHOOT GENERAL ROBERTS

DUBLIN, June 22.—An automobile carrying the assistant director general of the Royal Irish Constabulary, and four constables was attacked with revolver fire and bombs today.

Assistant Director General Roberts was shot in the head but is expected to live.

The chauffeur was shot.

This shooting started when the machine was passing under a rail bridge.

Continued at the wheel while an uninjured companion returned the fire.

After shooting the assassins threw two bombs. Nothing is known as to the casualties among those who made the attack.

LONDONDERRY IS WITHOUT BREAD

LEASD WIRE TO TRIBUNE

DUBLIN, June 22.—Londonderry is without bread and milk as a result of the fighting which has been in progress since last Saturday.

According to information received by telephone today, but none is at a condition to the streets are swept by rifle fire.

British troops that were sent to Londonderry from Loughrea in Northern Ireland are being to assist a cord between the Loughrea and Sinn Feiners.

SINN FEINERS AND UNIONISTS RENEW CLASH

LONDON, June 22.—Sinn Feiners and Unionists renewed their fighting today, between Sinn Feiners and Unionists, and three Sinn Feiners were wounded in one clash.

During the morning Sinn Feiners T. J. O'Connell, a Sinn Feiner, was shot in the head and killed.

It is now established that several persons were killed in the morning in Londonderry.

Monday, British troops are patrolling the streets, but shipping is continuing to be hindered.

The Sinn Feiners and Unionists were still fighting at Londonderry, but no word of their arrival had been received in London.

It was supposed that they had been held up on route.

BRITISH SOLDIERS MARCH TOWNS

All passengers train leaving Londonderry are searched by British soldiers and constables to prevent Sinn Feiners from approaching the city.

London reported that rioting was continuing in Londonderry.

(Continued from Page 1)

have a candidate for Vice-President who measures up to every requirement of a presidential candidate."

HARDING IS PRAISED BY GOV. STEPHENS

SAN FRANCISCO, June 22.—Raymond Benjamin, Republican State chairman, has made public a letter received by him from Governor Stephens upon Benjamin's return from the Chicago convention.

"My Dear Mr. Benjamin: Immediately following the recent Republican National Convention at Chicago I sent the following telegram to both Senator Harding and Governor Stephens: 'The convention's nomination for President and Vice-President is a great honor.'"

I congratulate you on nominating Warren G. Harding in November.

Warren G. Harding is a plain American having worked with muscle and brain in the good old-fashioned American way to make a home and a name for himself and his family.

His life is clean and he is worthy. Warren G. Harding will make a most excellent President.

Soft and sure in his Americanism and with an abiding love and regard for the American people and the American people's interests.

His election will insure a return to Lincoln's kind of government of the people for the people by the people.

I shall again do all I can to insure the election of Harding and to insure in the certain belief that our nation is safer under Republican administration. I sincerely hope that every Republican voter in California will heartily join in the election of Harding and Coolidge very truly yours,

WM. D. STEPHENS, Governor

resumed at Londonderry during the night and that further casualties had occurred in street fighting but no figures were given.

It is reported in Dublin that no British troops are contemplating suspensions of railway traffic in Central and Northern Ireland to prevent the concentration of Sinn Feiners.

Leaders of the Irish railway union declared they were ready to extend the strike which already is in effect if the government attempts to arrive out such a decision.

A SUMMER TONIC DRINK—Hawthorne's Health Tonic is agreeable to taste. Refreshing and invigorating. Ask for it.

"A Professional Wage"

The responsibility for a deplorable school system in Oakland will rest with the parents of Oakland school children.

Write to the City Council and Board of Supervisors TODAY, asking that the teachers be paid enough money to keep them at their desks.

### Husband Says Wife Called Him "a Bum"

Harold B. Wilson, 666 Alameda street, was the recipient of much abuse from his wife, Mrs. Lette Wilson, who called him a black-faced hound and a "dirty bum" when he returned from work with his face and clothes soiled, according to his testimony before Judge George A. Sturtevant, which won him an interlocutory decree of divorce.

### Roland T. Rasmussen Is Called By Death

Roland T. Rasmussen, a business man of Oakland and San Francisco, is dead in this city. Rasmussen was an old California resident, with a home at 2007 Myrtle street. He had been for several years connected with the Ebbey Machine Company of San Francisco. Rasmussen is survived by a widow and a daughter, Phyllis B.

### The Song and the Sergeant

Copyright, 1920, by Doubleday, Page & Co.; published by special arrangement with the Wheeler Syndicate, Inc.

Half a dozen people sitting at a table in one of the upper-Broadway all-night restaurants were making too much noise. Three times the manager walked past them with a politely warning glance; but their argument waxed too warm to be quelled by a manager's gaze. It was midnight, and the restaurant was filled with patrons from the theaters and the district. Some among the dispersed audiences must have recognized among the quarrelsome sextet the faces of the players belonging to the Carroll Comedy Company.

Four of the six made up the company. Another was the author of the comedy, "A Gay Coquette," which the quartet of players had been presenting with fair success at several vaudeville houses in the city. The sixth at the table was a person in a consequent in the realm of art, but one at whose bidding many lobs had perished.

Loudly the six maintained their clamorous debate. No one of the party was silent except when answering was stormed from him by the excited ones. That was the comedian of "A Gay Coquette." He was a young man with a face even to melancholy for his profession.

The oral warfare about immoderate tongues was directed at Miss Clarice Carroll, the twinkling star of the comedy. Excepting the downcast comedian, all members of the party united in casting upon her with vehemence the blame of some momentous misfortune. Fifty times they told her: "It is your fault, it is your fault, it is your fault that you have acted this way. At this rate the sketch will have to be taken off."

Miss Carroll was a match for any four. Gallie ancestry gave her vivacity that would easily mount to fury. Her large eyes flashed a scorching denial at her accusers. Her slender, elegant arms constantly menaced the tableware. Her high, clear soprano voice rose to what would have been a scream had it not possessed so pure a musical quality. She hurried back at the attacking four their denunciations in tones as sweet but of too great carrying power for a Broadway restaurant.

Finally she exhausted her patience

both as a woman and an artist. She sprang up like a panther, managed to smash half a dozen plates and glasses with one royal sweep of her arm, and declared her critics. They rose and wrangled more loudly. The comedian sighed and looked a trifle sadder and disinterested. The manager came tripping and suggested peace. He was told to go to the popularly disinterested. The manager promptly left the affair might have happened at The Hague.

Thus was the manager angered. He made a sign with his hand and a waiter slipped out of the door. In twenty minutes the party of six was in police station facing a criminal and philosophical desk sergeant.

"Disorderly conduct in a restaurant," said the policeman with a brought the party in.

The author of "A Gay Coquette" stepped to the front, wore nose-glasses and evening clothes, even if his shoes had been tans before they were sent to the patent-leather polish.

"Mr. Sergeant," said he, out of his throat, like Actor Irving, "I would like to protest to you, sir, that the comedy of actors who are performing in a little play that I have written is being disturbed by a friend of mine."

"We were having a little supper. We became deeply interested in the discussion to which one of the cast is responsible for a scene in the sketch that lately has failed so far. The piece is about to become a failure. We may have been rather noisy and intolerant of interruption in the restaurant, but the matter was of considerable importance to all of us. You see that we are sober and are not the kind of people who would cause a scene in a restaurant. I hope that the case will not be pressed and that we may be allowed to go."

"Who makes the charge?" asked the sergeant.

"I said a white-charged person in the rear. 'The restaurant sent me to be gang was raised' a rough-house and a rough-house."

"The dishes were paid for," said the playwright. They were not broken. The comedian was raised because were reorganized with her for spoiling the scene, Miss—

### HUMOR

### PATHOS

### ROMANCE

### Story a day

"For two weeks she has spoiled that scene in just that manner at every performance."

the troic wood nymph. A skirt of fern leaves touched her knee; she was like a humming bird—green and golden and purple.

And then she danced a fluttering fantastic dance, so agile and light and mazy in her steps that the other members of the Carroll Comedy Company broke into applause at the art of it.

And so the proper time Delmars leaped out at her side, mimicking the unsmooth, hideous bounds of the gorilla so fully that the startled audience burst into a short laugh.

Then began the most fantastic part of the scene—the wooing of the nymph by the gorilla. It was a kind of dance itself—eccentric and praiseworthy, with the nymph in coquettish and seductive retreat, followed by the gorilla as he sang "I'll Woo Thee to My Sylvan Home."

The words were nonsense, as befitted the play, but the music was worthy of some of the better Delmars struck into it in a rich tenor that owned a quality that shammed the fustian of a lyric.

During one verse of the song the wood nymph performed the grotesque evolutions demanded for the scene. At the middle of the second verse she stood still, with a strange look on her face, as if she were dumbly into the depths of the scenic forest. The gorilla's last leap had brought

him to her feet, and there he knelt, holding her hand, until he had finished the haunting lyric that was set in the absurd comedy like a diamond in a piece of putty.

When Delmars ceased Miss Carroll started, and covered a sudden flow of tears with both hands.

"There!" cried the playwright, gesticulating with violence; "there you have it, sergeant. For two weeks she has spoiled that scene in just that manner at every performance."

"There!" cried the playwright, gesticulating with violence; "there you have it, sergeant. For two weeks she has spoiled that scene in just that manner at every performance."

### THE SONG AND THE SERGEANT

from behind the sergeant's chair. "Must an old woman teach you all?" she said. She went up to Miss Carroll and took her hand.

"The man's wearing his heart out for you, my dear. Couldn't you tell it the first time you heard him sing?" All of his monkey flip-flops wouldn't have kept it from me. Just you be deaf as well as blind? That's why you couldn't act your part, child. Do you love him or must he be a gorilla for the rest of his days?"

Miss Carroll whirled around and caught Delmars with a lightning glance of her eye. He came toward her, melancholy.

"Did you hear, Mr. Delmars?" she asked with a catching breath. "I did," said the matron; "but I didn't think there was a use. I tried to let you know in song."

"Silly!" said the matron; "this way was the best. I did know, but—it was just what I wanted, Bobby."

She sprang like a green grass hopper, and the comedian opened his arms and smiled.

"Get out of this," roared the sergeant to the waiting waiter from the restaurant. "There's nothing doing here for you."

"Get out of this," roared the sergeant to the waiting waiter from the restaurant. "There's nothing doing here for you."

## LIFT OFF CORNS WITH FINGERS

Doesn't hurt a bit and costs only few cents

Drop a little Freecorne on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!  
A tiny bottle of Freecorne costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.  
Freecorne is the sensational discovery of a Cincinnati genius. It is wonderful.—Advertisement.

## Alkali in Soap Bad For the Hair

Soap should be used very carefully. If you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it. The best thing for steady use is Mulsified coconut oil shampoo (which is pure and greaseless), and is better than anything else you can use.  
One or two spoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.  
You can get Mulsified coconut oil shampoo at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months.—Advertisement.

## DON'T DESPAIR

## GOLD MEDAL HARLEM OIL CAPSULES

The world's standard remedy for kidney, liver, bladder and uric acid troubles and National Remedy of Holland since 1896. Three sizes, all druggists. Guaranteed. Look for the name Gold Medal on every box and accept no imitation.

## It's Easy to Put on Flesh

All you have to do if you are too thin and want to put on several pounds of solid stay-the-flesh is to take a five-grain tablet of Iron Phosphate with each meal. This builds up the nervous system, enriches the blood and thus enables the vital organs to assimilate the flesh building, strength-making elements of your food which heretofore go to waste. Folks who have tried it state they not only put on flesh but that it also almost instantly increases their strength, energy and endurance. You can get enough of these tablets for a three weeks' treatment of The Owl Drug Co. or any other druggist for only \$1.50 and its use is uniformly successful. If your druggist, a man you know, is authorized to refund your money if you do not like it. Better get it today and begin to get stronger and healthier, as well as better looking.—Advertisement.

## Hairs Will Vanish After This Treatment

(Toilet Helps)  
You can keep your arms, neck or face free from hair or fuzz by the occasional use of plain delatone and in using it you need have no fear of marring or injuring the skin. A thick paste is made by mixing some of the powdered delatone with water. Then spread on the hairs and after 2 or 3 minutes rub off, wash the skin and all traces of hair have vanished. Be careful, however, to get real delatone.—Advertisement.

## Japanese Protest Against Proposed Alien Land Law; Stephens Wants Aid of U.S.

WASHINGTON, June 22.—Japan has lodged what amounts to an informal protest with the state department against proposed legislation in California, providing for absolute prohibition of ownership or lease of land by Japanese, it was learned today.

On several occasions during the last three months, Kijuro Shidehara, the Japanese ambassador here, has brought the proposed California law to the attention of the state department in informal conversations with officials.

The ambassador has been anxious to determine whether the state department is alive to the situation and his informal representations have been construed.

The ambassador has been anxious to determine whether the state department is alive to the situation and his informal representations have been construed.

Supplementing the California alien land law, which merely prohibited ownership of land by Japanese, the proposed law imposes sweeping prohibition of the enjoyment of virtually all land rights by Japanese through the following restrictions:

Prohibition of land ownership by Japanese; prohibition of leasing farm land by Japanese; prohibition of the American-born Japanese from acquiring real property under the guardianship of his or her own parent; prohibition of the Japanese from being a member of or acquiring any share in any company or corporation owning farm land, and the confiscation of real property upon certain prima facie presumptions.

**INFLUX OF JAPANESE.**  
SACRAMENTO, June 22.—The influx of Japanese into California has brought about "alarms" conditions, and it has become necessary to protect the sovereignty of the state against this "growing menace" through diplomatic negotiation or a strict exclusion act, Governor William L. Stephens declares in a letter addressed to Secretary of State Clegg.

Governor Stephens expressed the hope in the letter that the initiative measure now being projected in the state to deny Asians the right to all land purchases or leaseholds would be accepted by the electorate by an overwhelming majority.

While California harbors no animosity against the Japanese people, he said, the state does not wish them to settle within her borders and to develop a Japanese population in her midst.

He asks in the letter that immediate negotiations be entered into with the empire of Japan to make impossible any further "evasions" of existing immigration agreements and to make such agreements as rigorous as possible.

In lieu of the act of Congress Governor Stephens asks of the Secretary of State an immediate revision of the present agreement, saying: "I appeal to you to use your good offices with the Empire of Japan that stricter provision be immediately enacted upon making impossible any further evasion of the existing agreement."

The Stephens letter is free from the rancor of race prejudice and makes its appeal not upon the consciousness of race superiority, but upon what it terms the economic impossibility of white competition with Japanese, and the unassimilability of the Japanese population in California, has virtually doubled during the past ten years and that in the same period of time the value of their products has increased tenfold, indicating the increasing grasp of the Japanese on California acreage.

## COLONIES TOO LARGE

Colonizing, by reason of race instinct, submerging whole white communities in certain regions of California, is declared a menace by Governor Stephens, adding that while California people assume no arrogant race superiority and while they recognize the many admirable qualities of the Japanese race, the fact cannot be blinked that blood fusion is as impossible as is economic competition through widely separated standards of living.

The high lights of Governor Stephens' letter follow:

"The people of California are determined to repress a developing Japanese community within our midst. They are determined to exhaust every power in their keeping to maintain this state for its own people. California views with alarm the rapid growth of these people within the last decade in population as well as in land control, and foresees the gravest menace of serious conflict if this development is not immediately and effectively checked."

## STATE LAWS QUOTED

"In 1913 the legislature of this state passed a statute forbidding the ownership of agricultural lands by Japanese and Chinese. The law provided for a three-year leasehold. The hoped-for results have not been attained. The spirit of the law has been evaded and broken through resort to legal subterfuges which have almost frustrated the very purpose of the enactment. These evasions have been accomplished through the medium of corporations, trusts, stock ownership, trustee land ownership, and the device of having native-born children of Japanese parentage made grantees of agricultural lands controlled and operated exclusively for their non-eligible parents."

## SCHOOL LAWS REFERRED TO

"A drastic school law proposed some years before was dropped on assurance by the Federal government that necessary arrangements would be made with Japan prohibiting the further immigration of Japanese labor. These negotiations led to the 'gentlemen's agreement.' But statistics show that this agreement has been ineffective. Skillful evasions have been resorted to in various manners. 'Picture brides' have been brought in, and upon their arrival set to work on farm lands, relatives of those already here have been brought in under the same dependents, large numbers have come in across the Mexican border illegally."

## LANING INTERVENED

"At the last session of the legislature, held in 1919, further legislation against the Japanese was proposed. At that time action was deferred mainly upon the advice of Secretary of State Lansing, then at Versailles, who stated that any Japanese legislation at that time would be unfortunate, and strongly implying that it might seriously affect the result of the peace conference. California patriotically acceded for the good of the whole country."  
"My views, as expressed then, and from which I have not receded, were that the grave problem could not be effectively dealt with except

through the medium of the Federal Government, and that action of the Government could only be obtained through the presentation of reliable information. The accompanying report is the result of a painstaking search for the facts."

## INITIATIVE PLEA

"At present an initiative petition being circulated which in all probability will find a place upon our ballot at this coming election. The initiative measure is a land law far more stringent than the present one, in that it forbids not only land ownership, but the leasing of lands by the Japanese and evasion of the act through corporate ownership."

The law, if adopted, will exhaust the state's power in dealing with a great race problem.

"In my opinion it will be adopted by an overwhelming majority of the voters, and will emphasize to the rest of the nation the seriousness of the situation here today. It may lead to diplomatic inquiries and correspondence between yourself and the empire. It is my purpose to communicate this information to our various representatives and senators in congress, that they may urge the passage of an exclusion act effectively disposing of the problem."

## EXCLUSION IS ASKED

"It should, in my opinion, provide for the full exclusion of all Japanese, saving certain selected classes; it should further provide for the within the United States at the time the act is passed, and provide that the burden is upon every Japanese within this country of proving his right to be here."  
"The action of the people of California will be based entirely on the

## Wool Growers Seek Federal Bank Help

WASHINGTON, June 22.—The Federal Reserve Board was asked yesterday to extend its facilities to wool producers to tide them over the present emergency caused by a sharp drop in the price of raw wool. A delegation of seventy-five growers, dealers and bankers from wool growing states, together with Senator Kellogg, Minnesota, and Representative Mondell, Wyoming, called on the board.

## Cholera Sweeping Southern Japan

TOKYO, June 22.—One hundred cases of cholera have been discovered in Southern Japan, some victims of the disease being found here, principle of race self-protection and the impossibility of assimilating the constantly increasing flow of Oriental blood."

## Isaac N. Fording to Be Buried Tomorrow

The funeral of Isaac Newton Fording, pioneer mining man, who died yesterday at the age of 80 years, was held today. He was a member of the Knights of Pythias, belonging to the lodge at Carson City, Nev. Surviving him are his daughter, Ida M. Fording, and his son, Howard.

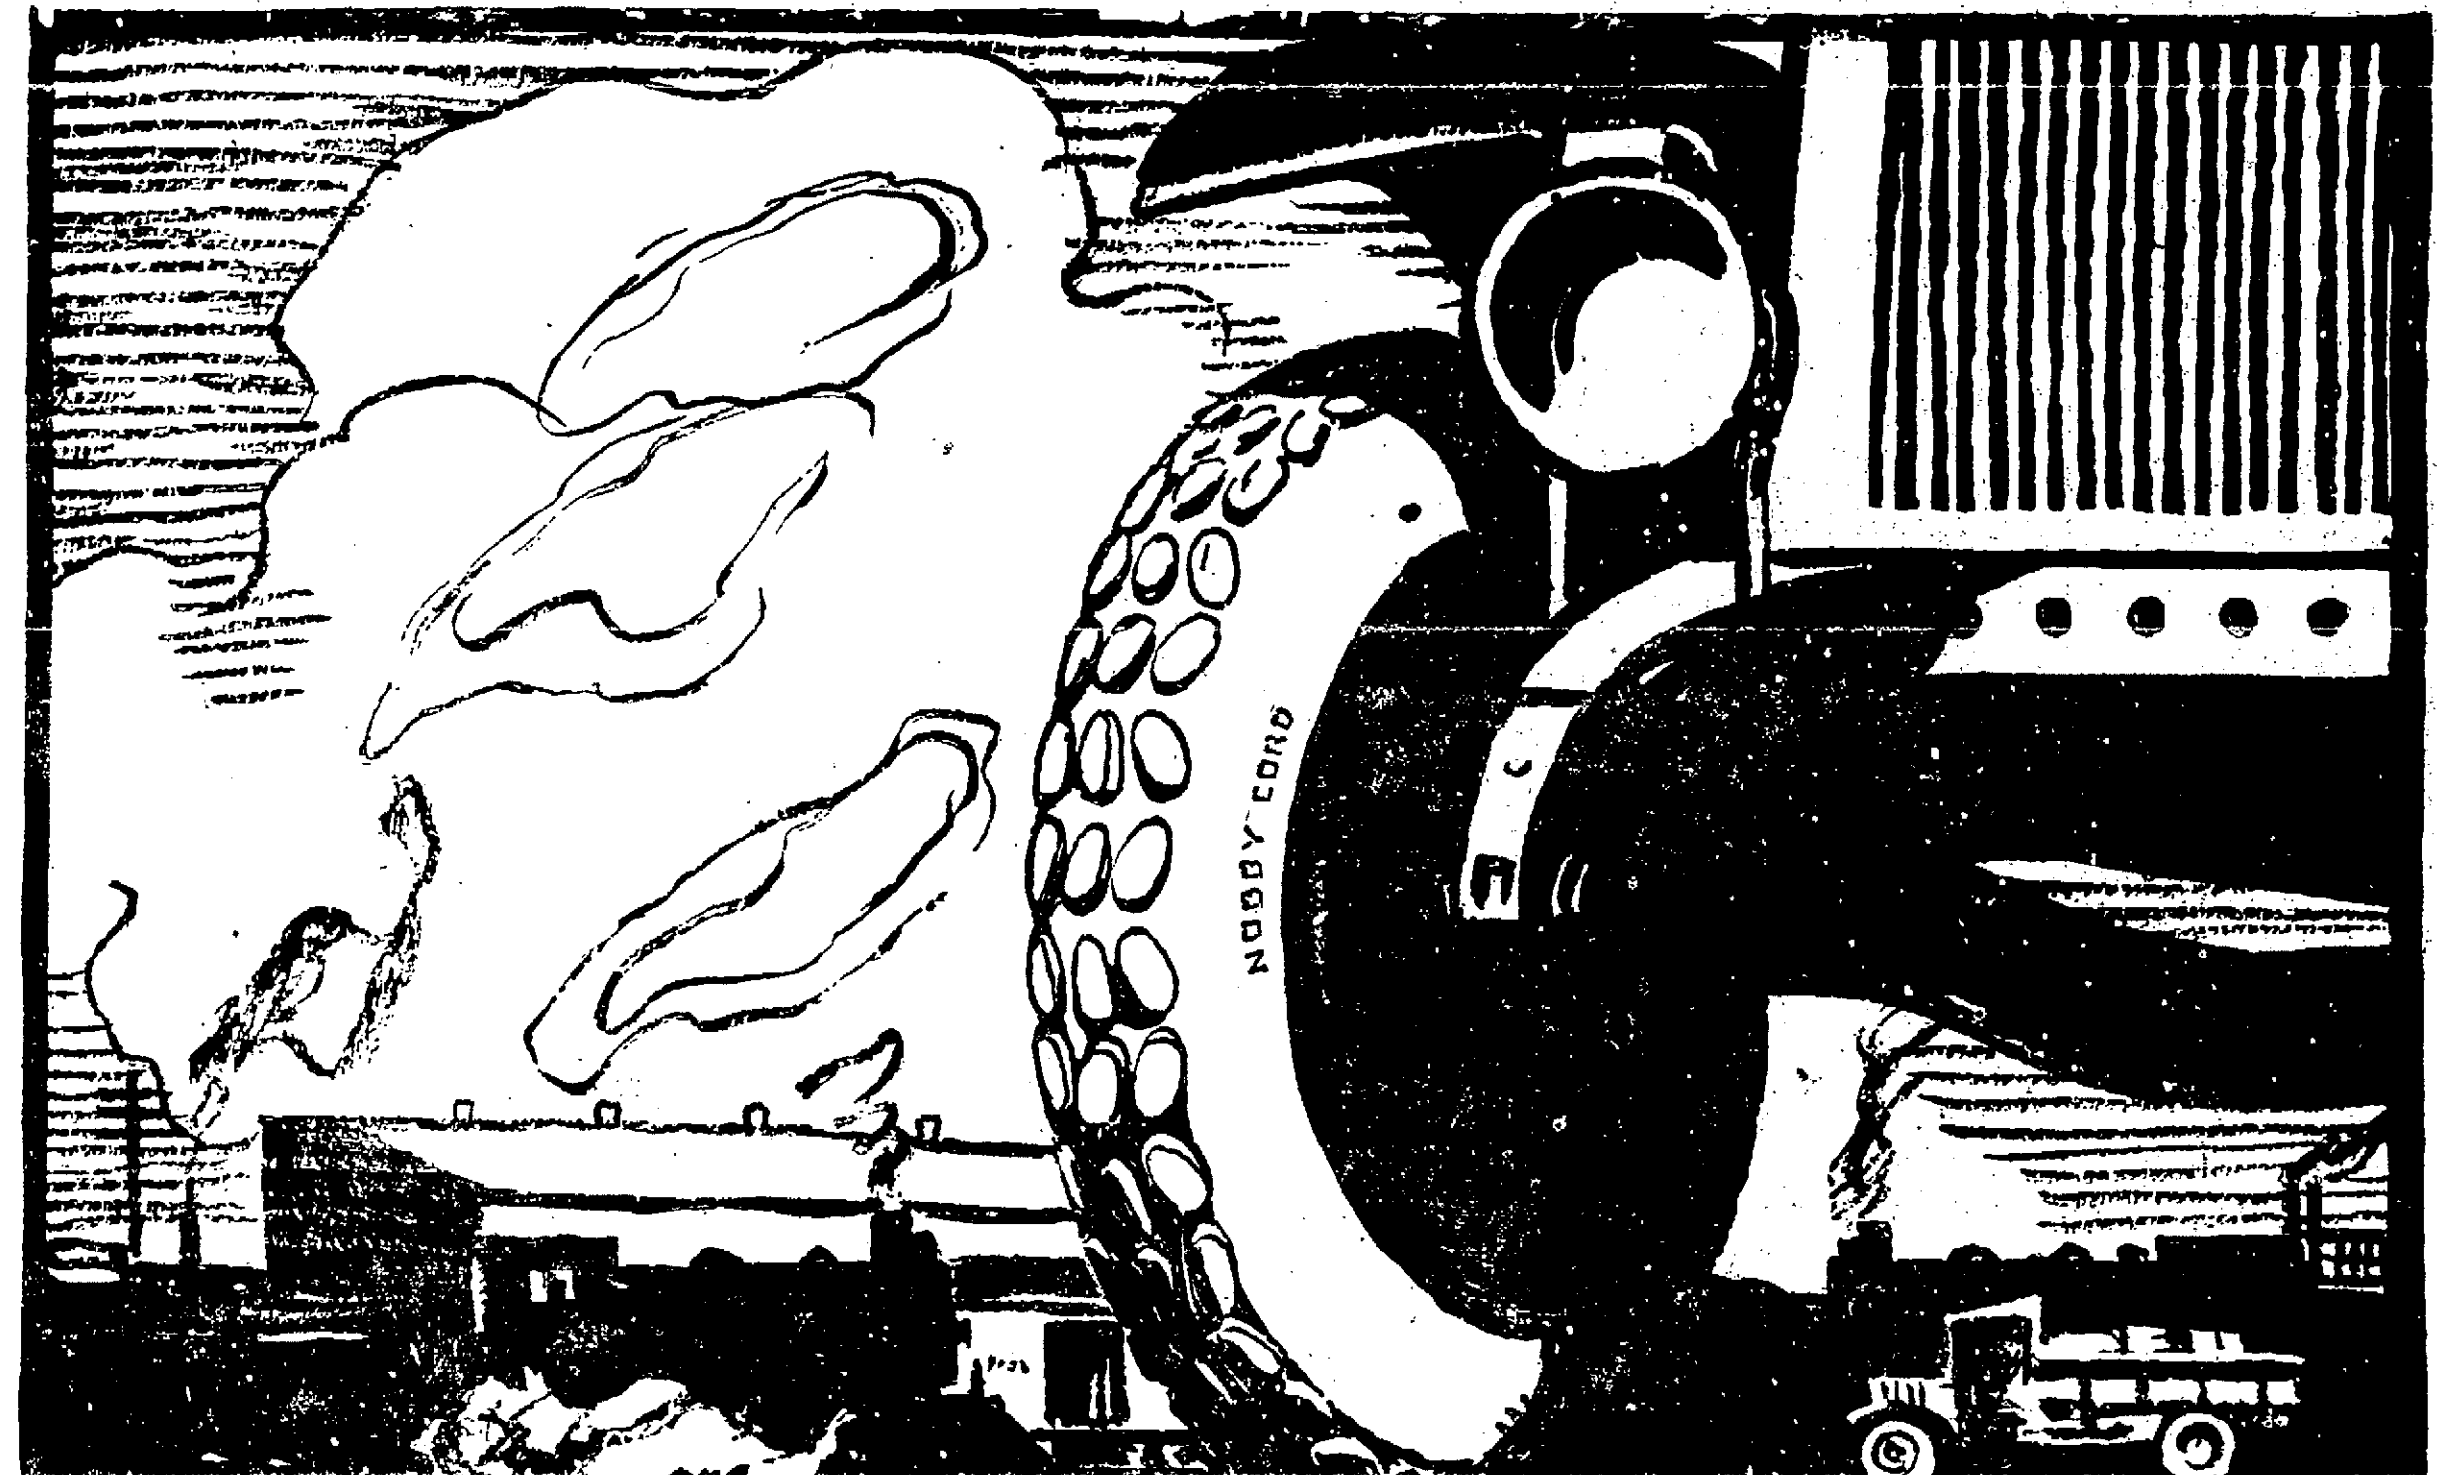

## Italian Troopers Battle Insurgents

ROME, June 22.—Italian arditi and Alpini have clashed with insurgents near Draculovitz, says an Aviona despatch to the "Giornale d'Italia." Government troops are reported to have lost 100 killed and wounded, while the rebel losses are believed greater.

## A-to-Zed Summer School

High School and Grammar Grade Branches Given.  
A Full Term's Work in Each Subject.  
The A-to-Zed Summer School meets the needs of those who wish to advance faster than the regular two term school year will permit, and of those whose work has been broken or irregular and who wish to be brought up to grade during the vacation months.  
**SPECIAL NIGHT WEEKS CLASSES IN**  
Physics, Chemistry, Advanced Algebra, Solid Geometry, Trigonometry, English, United States History, Civics and Language. As each of these classes covers the usual term's work in eight weeks, prospective students should not, except in cases of review, plan on enrolling in more than two at one time.  
**SUMMER GRAMMAR SCHOOL.**  
Besides the regular high school curriculum, the A-to-Zed School will conduct summer classes in arithmetic, grammar and other grammar grade branches. Special review classes are provided for those who wish a thorough grounding in grammar grade work before entering high school next fall.  
**The A-to-Zed School**  
2401 Channing Way, Berkeley, Cal.  
Telephone Berkeley 3344.

# WHAT IS A PNEUMATIC TRUCK TIRE

WHEN the first pneumatic truck tires the world had ever seen appeared on the streets of Detroit in July, 1911, people called them "balloons."

The idea of putting a heavy truck on air was so far in advance of anything the automobile world had yet thought of that it took time for people to grasp it.

Even today there is still a confusion in some people's minds as to exactly

what constitutes a pneumatic truck tire.

Before it produced the first pneumatic truck tires ever made, the United States Rubber Company knew that an overgrown passenger car tire would never solve the truck owner's tire problem.

What it started with was an idea—the idea of creating an entirely new kind of a tire—a truck pneumatic

—designed to meet trucking conditions and not merely market conditions.

The U.S. Nobby Cord of today is the pioneer pneumatic truck tire—lineal descendant of the first of its kind—brought out by the United States Rubber Company in 1911, after two years spent in developing it.

There is a difference between pioneering a tire and pioneering a market.

# REALTY DEALER TO BE TRIED ON FELONY CHARGE

Charles O. Henley, formerly a real estate operator of Oakland, was examined this morning on a charge of felony and embezzlement by Police Judge Mortimer Smith, and held to the superior court for trial. Bail was fixed at \$2000.

Henley was arrested at the instigation of the Oakland Real Estate board, of which he was formerly a member, after charges had been made before the board concerning his operations by H. P. Gallagher. Gallagher told the Real Estate board that Henley represented to him that he could buy a certain house which Gallagher wanted for an attractive price. Gallagher advanced \$100 to bind the bargain. The house was not purchased and Henley did not return the money, according to the complaint.

Investigation by the Real Estate board, according to Porter Giles, secretary, served to substantiate the allegations of Gallagher. Henley then left Oakland. At the instance of several real estate men, Gallagher swore to the complaint against Henley.

"Our investigation revealed that Henley took his client's money, and that next morning he could show nothing for it but a bad headache," said Giles this morning after the hearing. Henley was arrested in Sonoma.

# \$100,000 Fire in S.F. Mattress Plant

SAN FRANCISCO, June 22.—The Mattress company's plant, on Eighteenth and Bryant streets, was destroyed by fire last night. The plant was a two-story frame building. The loss is placed at about \$100,000, of which part of that amount is represented by mattresses burned.

According to Emil Wachter, foreman of the plant, he was passing the building when he saw flames in the rear, on the Eighteenth street side. He turned in the first alarm. He doused himself at a loss to account for the blaze, stating that no fire was maintained in the factory at night.

# Two Girls Missing; Elopement Hinted In Case of Elder

MISS RUBY HURT, 17, of 2085 Franklin street, who has disappeared from her home.

# Second, Only Fifteen, Feared Lured Away After Movie

Oakland policemen are searching for Ruby Hurt, 17, cannery worker, living with her parents at 2085 Franklin street. Yesterday she disappeared after telling her parents she left in the morning that she was going to work in San Francisco.

That Ruby may have gone to Livingston to meet a youth to whom she was engaged to be married is the belief of her mother, Mrs. Henry Hurt, who said Ruby had \$3.50 when she left. Another theory is that she may have gone to Ukiah, where the Hurts formerly lived.

Another girl to disappear is Carmen Molina, 15, 625 Fourth street, who started on a moving picture show Saturday night and has not been heard from since. Her brother, reported to the police today, it is the theory of her father that she has been lured away.

Music Teacher Held  
On Girl's Complaint

with a studio at East Fourteenth street and Eighty-fourth avenue, was arrested last night by Inspector Frank Smith and is today under investigation in the city prison. The complaint was lodged by the parents of a young girl, who charge that Linn turned the child to his studio by the promise of candy.

The police say that there have been other complaints concerning the conduct of Linn and that he has been under surveillance for several weeks.

# INSURANCE FOR SCHOOLS PLANNED

Adoption of a new system of handling school insurance, under which the school department will have the services of a special agent, connected with the Insurance Exchange of Oakland, will be given final consideration at a meeting of the board of education Thursday afternoon, following preliminary steps taken by the directors last evening.

At the same time an investigation will be made of the necessity for increasing the amount of the district's present insurance, as the result of the statement made last evening by President Floyd Gray that the present policies are obsolete and based on conditions existing several years ago.

Prior to Thursday's meeting a contract will be drawn by Secretary Lloyd D. Barnes and the new agent, who probably will be selected at that time on the recommendation of the Insurance Exchange.

Action on this issue was taken by the board on the strength of a report on the insurance question submitted by a special committee, consisting of Directors J. Loran Penick and E. A. Young, recommending the adoption of the plan previously discussed, of directing the school insurance through a capable agent.

# FUND FOR HERO'S FAMILY GROWING

The relief fund for the family of E. C. Loeffler, Oakland fireman, who lost his life while in the performance of his duty, is now being advertised by Pine Cone Elliott Whitehead, who is in charge of the relief campaign. At the time Loeffler died from injuries received while fighting a fire, he left a wife and children, the youngest being one year old. In order to keep the little family together, the firemen started a campaign.

A benefit dance, the proceeds of which will go into the fund, is to be held at the civic auditorium on June 26.

The recent subscriptions reported by Whitehead follow:

Kahn Brothers	\$50.00
Smith Brothers	\$5.00
A. Schluter	\$5.00
Meade's Restaurant	\$5.00
Columbia Theater	\$25.00
Firemen's Picnic	\$131.35

# College Set Interested in June Wedding

St. Clement's Chapel is to be the scene Thursday evening of the wedding of Miss Kathryn Hutchinson and Mortimer Smith Jr., of the city. Friends to assemble for the reading of the ritual by the Rev. F. Augustus Smith, rector. Miss Hutchinson is to be matron of honor and Mrs. Lyle Osborn will be bridesmaid, while Frederick Hutchinson will act as best man. Later an informal reception is to be held at the home of the bride's mother, Mrs. Irma Hutchinson, 2085 Franklin street.

The wedding interests were set, since the bridegroom was formerly a student at the University and a Delta Kappa Epsilon fraternity man.

Several hundred guests witnessed the marriage of Miss Kathryn Walters and Edward F. Budd Saturday evening in St. Anthony's church in the city. The Rev. P. J. Quinn officiated. The reception which followed was held at the home of the bride's parents, Mr. and Mrs. J. W. Quinn, in East Twenty-fourth street. Ivory satin and lace was worn by the bride, the veil effectively decorated with orange blossoms, while orchids and lilies-of-the-valley were carried in the bridal bouquet.

Miss Walker, sister of the bride, was maid of honor, and the bridesmaids were Misses Genevieve Carpenter, Marion Cunningham and Vera Page. John Budd was groomsmen and the ushers Ernest Volaw, Donald Walter and Elmer Wheaton. The little ring bearer and flower maiden were Harold Walter and Beth Hearn.

Mr. and Mrs. Budd are touring the south and later will make their home in this city. Mrs. Budd is a graduate of the Lourdes academy, while her husband received his degree from St. Mary's college.

LEAVE FOR SONOMA COUNTY  
Mrs. Lulu Rued Webster and Miss Joan W. better leave this week for Sonoma county to spend the next two months. Hugh Webster is on his way to Honolulu, where he is connected with a large corporation.

The wedding of Miss Madge Michael, daughter of Dr. L. Michael of San Leandro, and Edward McDermott will take place Saturday, June 22, at 4:30 p. m., at St. Mary's cathedral, Oakland. There will be a reception after the wedding. The bridegroom arrived from the East yesterday and the couple will be entertained by a number of dinner parties. The bride's only attendant will be her sister, Miss Frances Michael, and the best man, Sebastian K. Rinehart of Oakland. Little Joan Michael will be the flower girl. After a honeymoon trip to New York the couple will take up their home in Sonoma.

CARDS ARE OUT  
FOR TEA IN JULY  
Mrs. Marian McCandless and her sister, Miss Helen Rodolph, are to be hostesses Wednesday, July 7, at a tea at their home in East Fourteenth street, when Miss Juanita Ghirardelli will be the guest of honor. Seventy-five girls and younger matrons will be guests. Another affair for Miss Ghirardelli is the tea to be given by Mrs. Ward Dawson, June 28, at the home of the hostess' mother, Mrs. Helen Uhl, in Piedmont.

Tomorrow afternoon Mrs. Charles Butters will entertain at luncheon at her home in Chabot road.

FOR SAIL  
FOR SEATTLE  
Mr. and Mrs. Robert Huntington will sail in July for Seattle, where they will visit relatives of Mrs. Huntington, who will remain north for several weeks.

DIRECTOR TO VISIT OAKLAND  
Miss Maurice Curry of Olympia, Wash., who has been appointed regional director of Americanization work for the nine western states by the National W. C. T. U., has reached San Francisco. She will attend the regional conference of the W. C. T. U. at the Y. W. C. A. building in Oakland, June 24 and 25.

If you see it in The TRIBUNE, tell them so.

# BOY STEALS TO BUY JULY 4TH FIRECRACKERS

Too much patriotism and a passionate fondness for candy was responsible for the downfall of the youngest sure-enough burglar ever captured by the Oakland police.

The youngest burglar to become unmeshed in the police net is 11 years old.

He was arrested last night by Inspectors Arthur Sanderson and Robert Tracy on a charge of entering the home of Mrs. E. Swope, 180 Thirty-second street, on June 14 and stealing a child's bank containing \$13.

The Fourth of July was coming and 11 wanted money for fire crackers and candy and things, said the youngest burglar, as he was taken to the Detention Home last night.

# COUNCIL VOTES HARBOR FUNDS

An ordinance appropriating \$32,000 for the dredging of the inner harbor along the quay wall was given final passage by the city council this morning over the opposition votes of Mayor Davis and Commissioner Baccus, who opposed the expenditure which is being brought to the council for first action eight days ago. They maintain the work could be done more reasonably.

Steps toward completion of proceedings for widening Fourteenth street between Fifteenth and Oak streets were taken with adoption of an ordinance paving the way for the acquisition of property to be condemned.

Contracts for improvement of Over and Viola streets, between Suter and Porter, were awarded to the Hutchinson Company, and preparation was made to draft plans for improvement of Mangos avenue, from Thirty-fifth avenue east.

# Oakland Stock Show Meeting Held Today

Business of the Oakland Stock Show will hold a meeting in Oakland Friday at 2:30 p. m. at the Hotel Oakland, meeting business men to plan for the livestock show here from October 15 to 24. Mr. C. D. Grant has pledged \$5000 and the Oakland Meat and Packing Company and the stock.

# COMEDY PLAYED BY MRS. FISKE

Laurence Eyre's "Mis' Nelly of N'Orleans," which opened at Ye Liberty yesterday for three days, has as the star Mrs. Fiske. It is a simple, highly colored, swiftly-moving comedy.

"Mis' Nelly of N'Orleans" is described as a comedy of moonlight, madness and make-believe. Further, it gives Mrs. Fiske an opportunity to again prove herself a most charming comedienne. Hamilton Revelle supports Mrs. Fiske.

"Mis' Nelly of N'Orleans" continues at Ye Liberty for the next two days, concluding its engagement on Wednesday evening, after a matinee on Thursday by the initial Oakland presentation of Richard Walton Tully's newest production, a comedy of domestic life, "Keep Her Smiling," written by John Hunter Booth of "The Masquerader" fame and featuring David Miller, Isabel Withers and De Witt C. Jennings.

"Keep Her Smiling" remains at Ye Liberty for three days, concluding its engagement on Saturday evening after a matinee performance.

# Porto Rico Advance Guard Reaches S.F.

SAN FRANCISCO, June 22.—Porto Rico's fight for a territorial form of government was officially launched this morning with the arrival of Henry W. Dooley of San Juan. Dooley represents the advance guard of the Porto Rican delegation. He said the Porto Rican delegation is uninstructed and has no favorite.

# Presbyterians Will Hear Vice-President

Oakland Presbyterians have been invited to the reception to be given Monday night, the opening of the Democratic convention, to Vice-President Thomas R. Marshall, at the First Presbyterian church, San Francisco. The main speaker will be Vice-President Marshall, who has selected for his subject, "National Issues Before the American People."

# City to Investigate Garbage Rate Boost

Demands made on householders and apartment owners by city scavengers for more pay for collecting garbage, without the authority of the city council, were called to the attention of the city commissioners by Wilbur Walker, secretary of the Merchants' Exchange. An investigation will be made by Commissioner Edwards. Walker said householders had been notified that monthly charges would be increased from 40 cents to 50 cents.

# RUMFORD

# Confidence

More than 13,000 women and 22,000 men make up the list of the owners of Swift & Company.

Every state in the Union is represented.

Of this great enrollment more than 10,000 are employees of Swift & Company who own shares in the business.

An additional 13,000 employees are buying shares on deferred payments.

These men and women have confidence in the company's policies, its integrity and purposes. That is why they invest their savings in shares.

Swift & Company has been paying dividends regularly for 34 years. The present rate is 8 per cent.

Swift & Company shares are bought and sold on the Chicago and Boston stock exchanges.

The company itself has no shares for sale.

The shares represent actual, tangible values. There is no water.

Anybody—livestock man, retailer, or consumer—may buy them and thus become a part owner of Swift & Company.

No one man, no one family, owns as much as half of the stock.

This advertisement is for the purpose of acquainting you with the fact that Swift & Company is not a "close corporation," and that any one may participate in the profits—and share the risks and responsibilities—by becoming a shareholder.

**Swift & Company, U. S. A.**  
Oakland Local Branch, 450 Franklin St.

# News:

Think what  
this means  
to you!

## In New York today, clothing mfrs. are *begging* merchants to buy all-wool worsted suits at \$30 wholesale!

### It Looks Like Rock Bottom!

A month—six weeks ago—such a smash was undreamed of! Then the market broke, and the word went around "don't let the public hear it." That hurt our notion of fair play. We feel the public ought to know this sensational news, and ought to know just what it means!

*It will be months before this price-drop really hits retail prices.*

Wholesalers are still loaded high with top-priced merchandise. So are retailers. It will be months before the tracks are cleared for these lower priced clothes. We tell you that frankly.

*F. & C. Clothes will still be lower than these lowest wholesale prices!*

Think what that means. By the time those \$30 wholesale garments reach the retailer they'll be much higher. Wholesale and retail profits must naturally be added. You can't escape that. And so we tell you frankly—

*\$40 to \$50 will be the lowest retail prices of those \$30 suits. Better garments are here NOW at \$25, \$30 and \$35!*

That's because we ARE the manufacturers as well as the retailers of these F. & C. Clothes. You pay only ONE profit, and that's a mighty small one. By selling \$10,000,000 worth of clothing yearly, we are able to take an average profit of ONLY 56c per garment! Then, too, we save tremendously in making. A trip through any F. & C. factory would prove a revelation in how good clothes can be made with economy! In other words, F. & C. prices always have been and always will be lower than any other retail prices, and not only that, they are today lower than the lowest wholesale prices on a shattered clothing market! Remember the five reasons, they mean dollars to you—

1. Coast-to-Coast UPSTAIRS stores!
2. \$497,678.00 saved yearly in rent!
3. Our own big wholesale tailor shops.
4. Plain stores--no mahogany fixtures.
5. Cash business--no credit losses.

## TRADE UPSTAIRS & SAVE \$10

THAT'S OUR SLOGAN, BUT \$15 TO \$20 IS USUALLY YOUR SAVING

Every statement published over the F. & C. signature bears the stamp of absolute TRUTH! Every claim is ready to be proved! By doing business on a common-sense, money-saving basis, saving men real money on good clothes, we built this business in ten years from a \$310 start to \$10,000,000 annual sales! Could such success be based on anything but fair, square values and real SATISFACTION?

## BOLSHEVIK CROOKEDNESS

An emissary from the Lenin Trotsky gang at Moscow has gone to London to undertake the negotiation of a trade agreement between the British government and the Bolshevik power. Mr. Gregory Krassin has made some astounding propositions. He has tentatively offered to grant British subjects concessions for the exploitation of Russian private property confiscated by the Soviet dictators—industrial plants, mills and mines.

Through Krassin himself and other Bolshevik spokesmen, the intimation has been given that American capitalists will also be welcomed in Russia. The particular bait offered this country is the control of great paper mills and the cellulose industry. Overtures of a similar character have been before Italian officials and politicians for several months and efforts have also been made to break through France's sense of honor.

There are several reasons why all such proposals should be turned down by every civilized government.

The right of ownership of private property is one of the corner stones of civilization. It is the greatest safeguard of humanity. Bolshevik Russia has furnished the dreadful example of what follows application of the Socialist scheme of so-called communal ownership: there the private property passed to the control of the Socialist government and it remained less than two years for it to pass on to the control of a small clique of crooked exploiters who decreed compulsory labor and inaugurated the system of driving men and women to work at the point of the bayonet.

So far as Great Britain is concerned, the right of ownership of private property is one of the fundamental guarantees of Magna Charta. Violations of this right would be utterly repugnant to the British people and its violation by the government in the interest of two or three groups of capitalists would arouse the people to a point of anger that would speedily bring about the downfall of the government. Such a suggestion is not less objectionable to the American people, who regard private ownership of property as one of their most precious rights. No straight-thinking Anglo-Saxon under any flag could consciously lend approval to any proposition so foreign to the basic principles of his civilization as one forcibly to turn the private property of any citizen over to the exploitation of foreigners.

Again, the "confiscated" property which the agents of Lenin and Trotsky propose to transfer to foreigners is nothing else but stolen property, seized by a group of bandits, brigands and assassins who happened also to seize the machinery of government. At present it is in the hands of men who hold sway by military force asserted in the most diabolic forms of terrorism, and not by virtue of the approval of a majority of the people of Russia. For any foreigner to take over this stolen property and operate it, dividing the profits with the Bolshevik leaders, would be a crime punishable under the law of any country where the Anglo-Saxon or French doctrines of law are applied. No civilized government could approve of such a procedure.

Lastly, the proposal for the British and other foreign governments to enter into the conspiracy for the abolition of the right of private property is made by a regime operating, at best, as an experiment and which has not been recognized by the civilized world. For any government to enter into such relations with the Soviet regime would be to accord Lenin and Trotsky recognition in the family of governments—an unthinkable procedure.

That the Bolshevik leaders do not recognize the impossibility of their scheme is evidence both of their ignorance and their crookedness. If there are any honest or intelligent Bolsheviks or clear-visioned Socialists they must regard the plot of the Soviet regime to peddle the productive property of Russia to foreigners as a betrayal beyond the description of words.

Gamateli, the middle name of Senator Harding, the Republican presidential nominee, has not figured very prominently in American political

history, but in another era it was the name of a favorite son who occupied quite a prominent place in the affairs of his country. Thirty-five centuries ago the son of Pedahzur and prince of the children of Menasseh, son of Hezekiah, whose father was Anon, king of Judah, was named Gamateli. This Gamateli was chosen by his people to take the census of 1490 B. C. In the election that followed he carried the whole wilderness—Abel, Abeth-maachab, Abel-main, Adam, Ader, Ashtaroth, Beeshierab, Beth-shean, Beth-shittash, Bileam, Dor, Edrei, Endor, Gath-rimmon, Gilead, Golan, Gur, Ibleam, Megiddo, Michmethah, Nophah, Ophrah, Taanach, Tap-puah, Zarthan and Zereda. Evidently Gamateli is a worthy example as a political campaigner.

## PRIMARIES A FARCE

The presidential preference primary system as it at present exists in many States is a bad one. The California law, whereunder men known and agreed to be friendly to a candidate were selected to run on the ticket as supporters of that candidate, and because the delegates so selected were under the law presumed to vote for the candidate favored at the primary, has perhaps more good features and less bad ones than any other State primary law. But in the other States the primary was a farce.

In Oregon, which Senator Johnson carried, one delegate never did vote for him and after the first five ballots only five remained faithful. Johnson carried North Carolina by five to one, but never got the vote of a single North Carolina delegate. Wood and Lowden suffered in the same way and in comparable degree. In some States delegates on a candidate's ticket, presumably instructed to support him in the nominating convention, were selected by rival forces.

This is turned out, as was to be expected, and as Tim Tamm repeatedly stated, that the delegates selected at Statewide primaries played no important part in the nomination of the presidential candidate. Had every State selected its delegates under primary laws like those of Oregon, Idaho, Indiana, North Carolina and other States, the result would not have been different on that account.

But this is not the worst feature. Hon. James W. Gerard, candidate for the Democratic nomination, believes the primary to be a breeder of evil. "Presidential candidates cannot spend huge sums in State primary campaigns and keep clean," he says.

What he apparently means is that whatever may be said in explanation of the charges that developed in recent primaries, the system is inherently bad and in time inevitably will breed corruption, for he says the "primaries are playthings of financial princes." This is not so near the truth as is the statement that State primaries waged in several States in a nominating campaign require a princely outlay of money. There is nothing of the substance of play about it.

As it turned out at Chicago the candidates in whose behalf money had been lavishly spent were eliminated—they eliminated themselves—and men who had not waged any but a modest campaign in their home States, were chosen. A good ticket thus resulted in spite of a very bad system. It was a mere matter of chance that this occurred.

That there will be radical changes in existing primary laws within the next four years is certain. The people will realize that they cannot afford to permit the continuance of a dangerous, corrupting, costly and fruitless election system.

## WHO'S A PRUSSIANIZER?

President Wilson says the Republican party has been Prussianized. That is funny for two reasons. First, because the Chicago convention was the most open and the results the most uncertain of any convention that has been held in thirty years, the delegates having turned to Senator Harding after they had become exhausted from witnessing a two-day fight between three other candidates. Second, because the most Prussianized political party in this or any other country, in any time, has been the Democratic party during the last eight years.

President Wilson has been the undisputed leader of the most Prussianized party. He has told it when to speak and when to remain silent, when to work and when to keep its fingers crossed. And the party, in the absence of any choice, has docilely obeyed. President Wilson has completely scrapped two Democratic platforms and has dictated the essential planks of the platform to be adopted next week in San Francisco. He has selected the temporary chairman, the permanent chairman and in all probability will dictate the nomination.

One of the platforms he consigned to the scrap heap was written by himself—the St. Louis platform of 1916. He probably will scrap the 1920 platform to as large an extent as possible during his tenure of office, for he is attached to the theory that a platform is of no consequence to a man in power.

Discreet Democratic spellbinders will not exploit the President's hint to vilify the Republican party as "Prussianized." The steel in the glove of the party boss at the White House has been felt at all times, even since instructions have had to be issued from an invalid's chair. The hand of the boss has been heavy and has left many sores on the Democratic body.

Will the water wagon become the Democratic band wagon, or will the delegates ignore Mr. Tumulty and remain on the beer wagon?

## NOTES and COMMENT

It is not altogether impossible that a color question looms, to be added to the other considerable questions that have sprung up for civilization to solve, and which did not appear to exist before the world was upheaved by the war. The telegram from Chicago about negroes burning the American flag and causing riots is a small sign in that direction.

The moving picture "studio" as an arena for the swindler would seem to be most inviting. So many are crazy from reading of the immense salary that Mary Pickford is represented to enjoy that the man who represents that he can put them in a way to do just the same has a great chance to fleece the enthusiasts.

"Marshall may be a compromise." That is one of the prognostications in the democratic dilemma. The idea may be that defeat would thus become more of a joke than a disaster, and thus easier to bear.

Amelia Bingham is of the opinion that the United States "needs more emotion." This has been quite a brisk summer so far—two national conventions in two weeks, not to mention the question that is universally manifest over the U. S. but if there is a demand for a higher jazz register, those who feel the need should indicate where it is to be brought in.

We read of a man who met his death hanging by his toes. It was a dreadful way to cash in, though more secure than hanging by the eyebrows, which seems to be the attitude of a political party that is more or less in the public mind.

The third party is to be based on the North Dakota Non-Partisan League, according to a news account, with La Follette in the office as a standard bearer. That will be a hard goal to reach, it would seem, for those who have been in a rational way of taking their politics. La Follette is not epidemic.

The overall fad has reached Paris, according to a despatch which tells of artists parading in such raiment that small significance which the fad had here would seem to be lacking there, but it may afford considerable scope for laiking. That would appeal to the artist guild.

Salesmen with anything that an army could use seem to have had it easy when the big excitement was on. Government agents bought everything anybody had to sell. At least, it looks that way from the way Government has been reselling everything since the war ended, now nearly two years. The idea is suggested by the big ad announcing the sale of two million suits of underwear at Chicago.

In a dissertation on the subject we are informed that people get six complete sets of new brain each year. It is likely to be wonder why some people are so careless as to fail to retain at least one complete set.

It appears in a despatch that the Nebraska hosts will arrive on Friday in a special train. The Bryan faction will be in one car, and the Hittcock faction in another. Presumably there will be dinner and other train integers between to insure the peace. The preliminary humors of the convention are forming.

## SPIRIT OF THE STATE PRESS

A young spotted sea lion weighing about 50 pounds is in the possession of Jack Junta on the F. E. Booth Fish Company's wharf. It was caught in Suisun bay near Martinez "McCarthy" for that is the name they have given him. It is on a hunger strike, refusing to eat the fish which have been offered him—Pittsburg Despatch.

Instructions have been received at the navy yard from the Navy Department to the effect that destroyers 340 and 341, to be built at the navy yard this fall, will be named the Perry and Decatur. The keels of the two boats will be laid in July.—Vallejo-News.

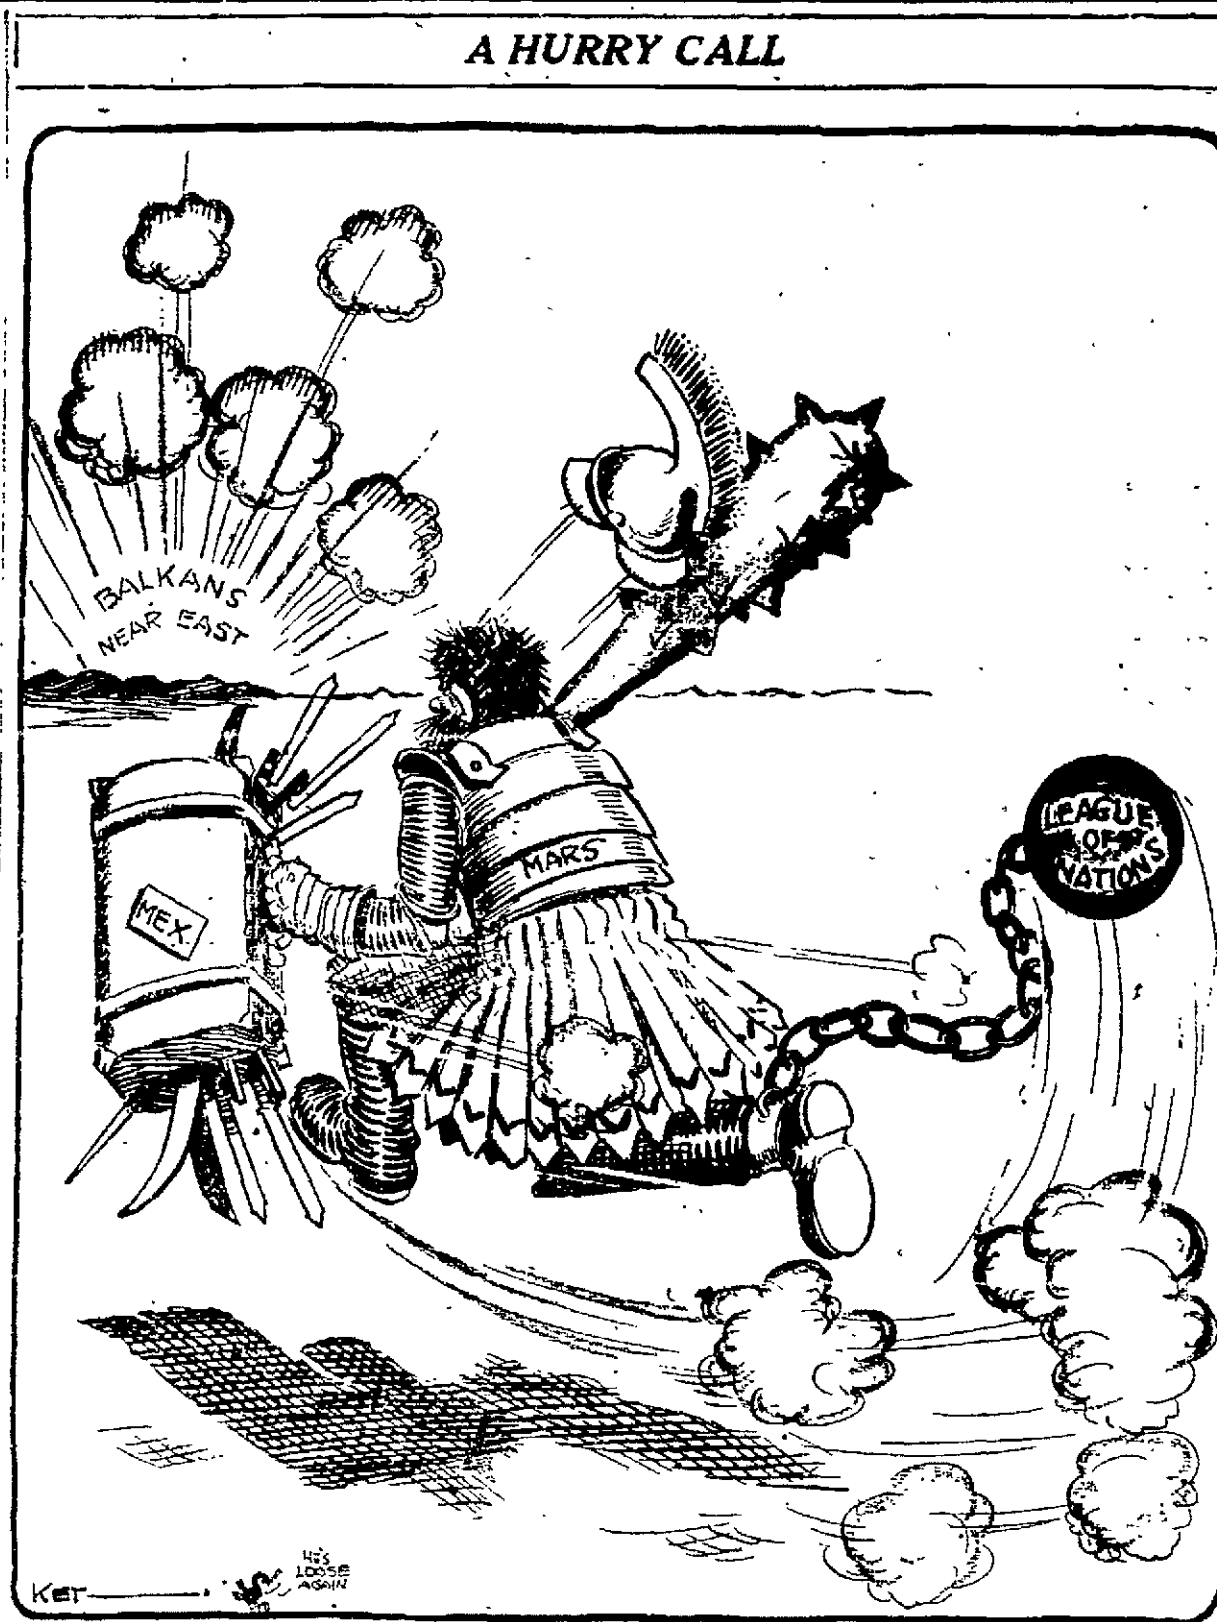

It seems that, after all, Stockton is not complaining about the population figures accorded her. We are at least, as philosophical as the young parents who wanted a boy but got a girl and find that she is not to be speeded at—Stockton Record.

Nothing is so unreliable as men's memories about the weather. Everybody has been talking about our June rain as if there never had been such a rain before. True, like Ten-nison's rare day in June, rains in June are infrequent in the San Joaquin valley—but there have been breaks in the drought now and then. We should have a weather bureau here to give exact details.—Bakersfield Dispatch.

The biggest Fourth of July celebration ever held in Contra Costa county will take place in Richmond this year, lasting over three days, July 3, 4 and 5. The celebration will open at noon Saturday, July 3, when the queen of the festival will be crowned. The queen is to be elected during a contest to start June 12 and end June 27. She will ride in the parade as the Goddess of Liberty and will receive a prize of \$100.—Pittsburg Despatch.

Considerable interest and excitement has been aroused in the vicinity of Walnut Creek since the recent discovery of oil seepage in a well on the old Larkey place, two miles this side of the valley town.—Pittsburg Despatch.

Campers in the national parks and forest reserves will be warned by "brief printed legends" on their tobacco packages, if the suggestion of Secretary Meredith is adopted, not to drop matches or burning tobacco in the woods.—Richmond Independent.

## WITH ALL HER FAULTS

B. FRED EMERSON BROOKS.

The Doctor said the Shrew must die. And bade the husband calm his fears.

The hen-pecked husband made reply:  
"Ah! these are only grateful tears:  
My fears, good Doctor—you mistake,  
I trembled lest she might survive  
But death has brought a peaceful look."

"That we," he possessed her when alive,  
She was so constant in a room,  
That none her vacant place can fill—  
She seems so calm and quiet now—  
With all her faults I love her—still!"

He vowed he ne'er would try again  
But Cupid made him change his mind:  
Which proves how weak are vows of men.  
When charming widows have designed.  
"This widow has no faults," said he—  
Neither her hair nor teeth are faults—  
And all her foibles seem to be  
But virtues which the world exalts.  
A huge distiller she owns  
Left by her former husband's will—  
Therefore I sue in grateful tones  
"With all her faults I love her still!"  
Berkeley, June, 1920.

## TRANSMIT MESSAGES ON BARE WIRE UNDER WATER.

Ocean cable telegraphy over a bare wire, without a vestige of insulation, entirely dispensing with the present cumbersome and expensive form of cable, is now practically assured as a development of the early future. Still more astonishing, direct telephone conversation over the same bare submarine wire may be expected as a concurrent accomplishment. These extraordinary results are predicated upon the success of a series of experiments recently performed by the chief signal officer of the United States army.

Reduced to its simplest terms, the newly discovered system of communication is a combination of wire-ness and wire methods and its equipment consists of two wireless telegraph or telephone sets connected by a wire. In the first experiment, a bare, clean No. 12 phosphor-bronze wire was laid across the bottom of the Potomac river, between stations three-quarters of a mile apart. The transmitter was an electron-tube oscillator with a current output of about 270 milliamperes at 600,000 cycles, and the receiver an electron-tube and six-stage amplifier without ground connection. Tuning in the usual way, both telephonic and telegraphic communication was obtained, in multiplex as well as singly.

Two stations the same distance apart were also connected by a bare No. 16 copper wire, buried in eight inches of moist earth or laid on top of it, and similar satisfactory results were obtained, using about 100 milliamperes of current and frequencies as high as 1,000,000 cycles. In connection with the work a new form of resonance wave coil was developed, consisting of a very long helix of many turns. This coil not only improves transmission when used as part of a line wire or antenna system, but serves as a valuable direction finder when employed as an open-coil antenna in wireless work.—July Popular Mechanics Magazine.

## BUT NOV. 2 IS FAR OFF.

Possibly after November 2 the President and Congress may be willing to devote less time to "passing the buck" and a little more time to the discharge of the legitimate duties that devolve upon them.—Springfield Union.

## WHAT'S DOING TO-NIGHT

Civil Service Board meets, city hall.  
Merchants' Exchange meets.  
Allendale Improvement Club meets, Mutual hall.  
Mrs. Myrtle Leonard gives recital, Adelphi club house, Alameda.

## HEALTH and HAPPINESS

By Dr. LEONARD K. HINSHBERG, A. B., M. A., M. D. (Johns Hopkins University.)

The heart is a suction bag shaped like a whip-top, made of tough muscle, which shrinks and expands to pull in and squeeze out blood at the average rate of 72 squeezes a minute. When the heart palpitates from passion, feeling, fear, anger, love, paralyzed nerves or exertion, it may relax and squeeze over 200 times a minute.

Why do most persons fear an attack of "tachycardia" or palpitation?

William James, the philosopher; Dr. George W. Crile, the surgeon; Prof. Walter Cannon, the physiologist, and Dr. William E. Watson, the experimental psychologist, have each contributed exact, real facts without theories to explain palpitation of the heart. Their researches, piecemeal and linked by link, make an array of non-guessed results.

Palpitation may arise from a momentary loosening of the horse rein, the vagus nerve, which keeps the heart muscle in check and regulated like the pendulum of a clock.

Alcohol, ether, fatigue, waste, certain foods, drinks and medicines, dampen, dull or temporarily paralyze the messages and impulses which pass through the vagus nerve. The heart gallops away like a prancing, untrained colt.

Injectons of thyroid, adrenalin and other gland products have a direct influence upon the activity, rhythm, regularity and beat of the heart. Excessive doses of these either as medicines or with food, result in cardiac disorder, accident, emotion or growth augments the frequency and regularity of the heart beat.

Athletics, especially over-exertion, promotes the movements of the heart, which rest flat on your back soon calms and stops.

Fear, anger, over-brought love and passion, according to Prof. James, seem to accompany or precede palpitation, but it is really the sequence after palpitation and glandular activity have begun. The sensation of sight sends a message to your muscles and the heart muscle. These in turn start the spasms of the thyroid and other glands. Then you feel fear, love, anger or some emotion.

After all, the heart muscle is one of the hardest, toughest and most vigorous textiles of the human fabric.

Be the origin of "tachycardia," what it may, the ordinary spell from alcoholism, fatigue, exertion, fear, excitement, goitres, enlarged thyroids or medicines, soon subsides without injury to the heart.

Rest, quiet, a calm, cheerful spirit, cessation of all medicines, removal of the thyroid, absence of fear, temperance in food and drink, physical training to strengthen the vagus nerve and the heart muscle are among the means to relieve palpitation.

To be sure, the spells of palpitation, which occur rarely to some women, called "paroxysmal tachycardia," require special treatment.

For some means to induce nausea and vomiting, Ipecac or mustard water makes the patient vomit. This is a strong stimulus to the vagus nerve, which acts as a check to the rapid heart, and the spell is over for some time to come.

# PARLEY OUTLINES NEW POLICY IN SHIPYARD WAGE

While the navy department and shipping board officials in Washington with heads of shipyard workers' unions are discussing the abandonment of the war-time policy of paying shipyard workers a uniform wage scale, shipyards here are going ahead on the war-time policy and taking no part in the discussion. The action of the Washington officials, whether they abandon the plan or not, will have little effect on the local yards, which are operating under private contracts for the most part, according to Fred Metcalf, secretary of the associated shipyarders.

Officials of practically all large shipbuilding concerns were in conference yesterday in Washington with officials of the navy department and shipping board and heads of shipyard workers' unions. The conference was called by the special board recently appointed to consider readjustment of the wage scale.

Spokesmen for the shipbuilding companies objected to continuation of paying uniform wages, and declared that, with war conditions passed, matters of wages and working conditions should be adjusted by the yards.

No consensus was reached yesterday. The navy department was requested to submit recommendations in changes of wages and working conditions.

While the local yards would not be affected to any great extent either way, the bay yards have representatives at the conference to keep the local builders posted on any action that might be taken, according to Metcalf.

# Realty Broker Sues To Recover License

Recovery of his realty broker's license, which was revoked by the California State Real Estate Commission following a hearing on charges of fraud, is asked by F. R. C. Newman in a petition for a writ of review of the proceedings of the hearing, filed in the superior court.

The defendant named in the petition are the Real Estate Commission and Real Estate Commissioner Ray L. Riley, as well as eight others, who Newman sets forth, pressed the charges against him. The co-defendants are: George B. Burr, David Darrach, William T. Downing, Sophia Fraumond, R. Porter Giles, secretary of the Oakland Realty Board; Herbert S. Patton, Miss Ida L. Russell and Mrs. Teresa Schwere.

The hearing was held before the commission last April. It was alleged Newman misrepresented conditions in negotiating for the sale of property for the defendants. He was denied the right to transact business in California.

# JULY 4 PROGRAM OF CITY PLANNED

A Fourth of July program, including fireworks, aquatic sports on Lake Merritt, literary exercises, and a grand ball, free to the public, at night in the Municipal Auditorium, is being prepared by the Merchants' Exchange, following the action of the City Council in appropriating \$1500 for this year's celebration, and a similar donation from the Board of Supervisors.

P. N. Hanrahan has been named general chairman in charge of the different committees handling the various details of the day. The following sub-committee chairmen have been selected: Fireworks, P. N. Hanrahan; grand ball, Harry G. Williams; literary, W. E. Gibson; music, E. F. Muller; aquatic sports, E. O. Meyers; decorations, C. F. Carl.

The celebration, which will be held on Monday, July 5, in view of the fact that Independence day this year falls on Sunday, will open with literary exercises in the Auditorium theater, followed by an entire afternoon of aquatic sports on Lake Merritt. The fireworks display, promised by the committee to be the finest ever held in Oakland, will start early in the evening, and the day will end with the grand ball.

# Berkeley Scene of Girl's Unique Studio

BERKELEY, June 22.—Patterned on Isadora Duncan's studio in Paris, Miss Rhea Boynton, at the University of California, co-ed., has established in the Berkeley hills a studio of expression of which an effort is being made to forego traditions and interpret art in its original beauty.

It was Miss Boynton's scant draperies, among those of other college dancers, which caused managers of the recent "Parthenia" at the university to add a few inches to the costumes of the performers. At these "restrictions to art" Miss Boynton laughs in her own studio, where she dances with the sky for a canopy, lawns for a floor and oaks and eucalyptus for a background. She is carrying out her own theories as to the interpretation of the dance.

A former pupil of Isadora Duncan, Miss Boynton is including all of that famous dancer's abandon in her dance interpretations with original ideas of her own. She is being assisted by her mother, Mrs. C. C. Boynton. The hills adjoining the unique home of the Boyntons, where they sleep, eat and live outdoors, form the scene of the studio.

# HE GRABBED PASS; NO THEFT, CLAIM

The distinction between a railroad ticket and a railroad pass was the bone of contention in the felony examination of Joe Cleveland, in the police court, this morning, before Judge Smith. It may result in the defendant's freedom.

It was alleged that Cleveland snatched a pass to New Orleans from a friend in a pool room. He was caught in Los Angeles.

"I submit that a railroad pass is something that is given free of charge by the company issuing it and can have no specific value," said A. Pierre Fontaine, defense counsel.

Both H. Greenrose, passenger agent for the Southern Pacific, and T. F. Eagan, chief of the railroad pass bureau, testified.

The case was put over until tomorrow.

# Two Motorcyclists Injured in Crashes

Two cyclists are recovering today from injuries in accidents on Oakland streets last evening. S. E. Glascock, 48, a collector, residing at the Merritt hotel, received a possible fracture of the right ankle, a sprain of the left wrist and numerous cuts and bruises when his motorcycle struck a dog on Wilson avenue.

Robert E. Smith, 34, 644 Second street, fell from his bicycle at Seventeenth street and Broadway and received a possible fracture of the shoulder.

# City Wants Car Line Street Repair Made

Steps to compel the San Francisco-Oakland Terminal Railway to improve Fruitvale avenue to improve property owners were taken by the city council this morning. The council adopted a resolution to carry the case to the State Railroad Commission. The city attorney is ordered to apply to the Railroad Commission to allow and compel the company to use sufficient money from its depreciation fund to make the repairs desired. The company also was asked to join in the request.

# CHILD KILLED BY AUTO, PLAYING IN FRONT OF HOME

BERKELEY, June 22.—Bruce Overman, 3-year-old son of Mr. and Mrs. John Overman, 3220 Adelaine street, died en route to the Fabiola Hospital last night from injuries he received when he was struck by automobile driven by Mrs. Flora Reid, 3141 California street. The lad was playing in front of his home when the accident occurred.

Mrs. Reid told the police the boy ran in front of the machine.

# THROWN THROUGH SHIELD

Halvert Witter, 19-months-old son of Mr. and Mrs. Guy Witter of 6450 Benvenue avenue was seriously injured last night when the automobile in which he was riding with his mother was struck by another machine driven by Prot. E. J. Lee, head of the state pure food laboratory at the University, at the corner of Derby street and College avenue. The was thrown through the wind shield.

T. W. Beckerleg, 204 Nevin avenue, Richmond, who was sentenced to ten days in the county jail yesterday and who was also deprived of the privilege of driving his car for thirty days by Judge Robert Edgar, will start serving his sentence today. J. D. White, who was with Beckerleg at the time, is held in the city jail awaiting a preliminary hearing on June 24 of a charge of driving while intoxicated.

# "TOO MUCH GAS"

SAN RAFAEL, May 22.—Rodolfo Fambirini, 194 Broadway, San Francisco, attempted to "walk on the gas" on the Corte Madera grade with the result that his car left the road yesterday evening after it had struck another machine and plunged 150 feet into a canyon. With Fambirini were three other men. All escaped injury. In the wrecked machine was found registration slip bearing Fambirini's name, and a summons ordering him to appear yesterday before Justice of the Peace Rudolf of the county of Marin on a charge of speeding near San Rafael. The accident occurred within an hour after his arrest for speeding.

# HAYWARD, June 22.—Fred Owens, driver of a truck belonging to the Motor Service Express Company of Eureka, suffered a broken arm bone today when the truck, which was en route to Oakland and loaded with rubber, overturned on the Castro hill grade, about three miles from here. Charles Collins, who was riding on the truck with Owens, was not hurt.

# Temporary Patrolmen Are Resigning Jobs

Notification of two additional resignations of temporary patrolmen, Ireland S. Davidson and Alvin B. Duncan, was received today by the civil service board. At the same time the statement was made by officials of the board that several other candidates who passed the examinations and have places on the eligible list of 27 just posted have announced that they will not take regular appointments.

Filling of the seven existing vacancies in the regular force will leave only twenty names on the eligible list and that number of available men for the fifty new positions recently created will be further reduced by the removal of the names of at least three candidates who will not accept appointment.

# Druids Nominate Officers Today 500 Are in Livermore Session

C. P. VICINI, noble grand arch; MARY VALENTE, grand arch druidess, and R. B. OGILVIE, deputy grand arch, in attendance at Druids' convention at Livermore this week.

# Men's and Women's Branches of Order Gather in State Convention; Memorial Monument To Be Erected to Heroes.

LIVERMORE, June 22.—The state convention of Druids today nominated the following candidates for officers to be voted upon tomorrow: Noble grand arch, R. B. Ogilvie of San Francisco; deputy grand arch, Byron Brainard of Los Angeles; grand secretary, C. A. Guglielmoni of San Francisco; incumbent grand treasurer, E. N. Sadenoso of San Francisco; incumbent grand marshal, A. J. Giacomini of San Francisco; grand herald, C. C. Salina of Salinas and R. J. Jeffery of Stockton; contested: grand guardian, five nominations, as follows: S. P. Galvin of Los Banos, G. de Benedetti of Oakland; Henry Minuccini of South San Francisco; Nels H. Johnson of San Jose and Joseph Pellegrini of San Francisco.

It was decided to build a \$5000 memorial in Golden Gate park.

Morning and afternoon sessions are being held here today by the two state conventions being held by the two branches of the Druid order, the United Ancient Order of Druids and the Grand Druidess. The latter is companion women's order of the lodge.

This evening at 8 o'clock there will be a class initiation at which Livermore Grove will admit about 50 candidates. The work will be performed by the grand officers' degree team.

A grand tour around the Livermore valley tomorrow afternoon is to be one of the big social features of the session. The installation of grand officers is to be held Thursday.

The sessions are being presided over by C. P. Vicini of Jackson, deputy grand arch. Grand Druidess Mary Valente is presiding over the women's circle. Vicini is district attorney of Jackson county and has

# BETTER JANITOR SERVICE IN CITY SCHOOLS IS AIM

Reorganization of the janitorial service in the Oakland public schools with the idea of increasing the efficiency of the custodian service, will be put into effect with the opening of the coming school year under a plan recommended by Secretary Lloyd D. Barzee and adopted by the board of education last night.

The efficiency improvement sought by Barzee will be brought about, according to his recommendations, by a system of closer supervision and periodical reports on efficiency, by a more careful examination and selection of new men, and by the promotion of assistant custodians to better positions on efficiency and merit only when vacancies occur.

With the aid of the civil service board a more elaborate system of selection has been worked out, including medical tests, physical and strength tests and character investigation for all applicants for entrance or promotion in the service. In addition the janitors will attend a course of lectures during the year to get "pointers."

# "A Professional Wage"

Teachers are leaving the schools today because they cannot afford to stay in them. They cannot live on the salaries paid them in the Oakland schools today and they CAN get other work that pays a great deal better for their natural ability and the years of training invested.

FORTIFY THE COMPLEXION AGAINST SUN AND WIND

Many a lovely complexion has been marred through neglect of its owner to protect the skin against the changes wrought through unusual exposure to sun and wind. Now that the season of outdoor play and recreation is at hand, every woman should consistently use Sandisepic Lotion, that delightful and indispensable toilet luxury, which affords absolute protection to the most delicate complexion. Summer suns and strong breezes have no terrors for the woman who uses Sandisepic; it gives absolute protection from sunburn, windburn, tan and freckles; it keeps

the skin soft and cool, imparting to it a wholesome, velvety texture. Sandisepic also allays irritation and itching in cases of rash, prickly heat, mosquito or other insect bites. It is delightfully soothing and refreshing. It is prepared scented and unscented with powder in tints of white, flesh and brunette. Sandisepic is easily procured at any drug and department store. If you cannot secure it, send a check, with dollar's stamp, to the Fabencott Laboratories, Portland, Ore., for a full-size bottle, postpaid. Advertisement.

HITCH TURNED UP  
IN WATER PLANS;  
MEETING FRIDAY

The difficulty of segregating those portions of the distributing system of the Eastbay Water company within the boundaries of Oakland, Berkeley, Alameda and Richmond probably will prevent realization of the plan of the Eastbay water company to purchase portions of the plant, it developed at the conference between Oakland and company officials in the office of Mayor Davis yesterday.

In view of the hitch developed when Wigginton Creed, president and George Wilhelm, engineer of the company, pointed out the impossibility of divorcing sections of the system, a meeting of the water committee was called by Mayor Davis for 2 p. m. Friday to discuss possibilities.

It was pointed out by both Creed and Wilhelm, to Mayor Davis and Commissioner Bacous, Oakland's representation on the water committee of mayors and councilmen, that the purchase by each of the cities of its portion of the distributing plant, or a determination of the price each city must pay under such a purchase, will not be possible and would not be tolerated by the state railroad commission.

Six Oakland Homes Entered,  
Robbed of Money, Jewelry

Six burglaries were reported to police at different times during the night and early this morning by Oaklanders.

Cutting through a screen door on the back porch of the home of Mrs. Walter Scharitzky, 1933 Webster street, marauders entered the house and searched it from top to bottom last night. They stole a valuable diamond brooch.

The work of the "half-inch jimmy" burglar was evident to the police in the burglary of the home of Eugene Burastero, 1684 Sixteenth street, who reported that a gold watch, jewelry and a small amount of money were taken.

Mrs. A. Nicholson, 1229 Nineteenth avenue, reported, that daylight burglars entered her house last evening, during her absence and turned it topsy-turvy. No estimate has yet been made of the loss.

Trying open a side window in the

apartment of George R. Smith, 473 Nineteenth street, thieves entered and stole a large quantity of jewelry and clothing.

Burglars who entered the home of M. P. Azveda, 1720 Campbell street, last night were evidently amateurs, according to the police. Pronounced finger prints were left on the window-panes. Photographs of these finger prints are being examined today in the hope that they will furnish a clue to the identity of the burglars. The loss was small.

Thieves last night took advantage of the absence of J. Nicholson and his wife in Los Angeles and leasurably looted the family home at 138 Grand avenue. The house was searched from attic to cellar. There were evidences found by the police this morning that the burglars had spent considerable time in the pantry during their presence in the house. Clothing and jewelry were taken.

The new rate asked for includes, besides the amount paid during the present year, \$90,000 for fifty additional elementary teachers at the present salary schedule, \$30,000 to allow the increase of \$420 in the salary of all members of the elementary teaching force in accordance with the campaign, and an additional \$20,000 to provide funds for maintaining a salary schedule for assistant school custodians from \$125 to \$150 a month and for head custodians from \$150 to \$175 a month.

According to an accompanying explanatory statement by the budget committee, the request was made necessary by the inadequate support afforded to elementary schools by the state by the present state laws, evidenced by the campaign now being waged to increase the revenues available to elementary schools.

INCREASE IS SOUGHT

The sum of \$235,300 to be asked of the city, which is in addition to the 5-cent levy already requested for the purchase of property for construction work, covers the entire salary question for the elementary schools.

The board of supervisors, according to Secretary Lloyd D. Barzee, will be asked for an increase in the school rate from the 42 cents now paid to the full rate of 50 cents on the \$100 allowed. The county funds will cover salaries for high school, evening high school and kindergarten teachers, high school janitors and funds for the free high school text books provided by the last legislature and the part-time and continuation school budget.

As Judge Besly announced probation would be granted Miss Schiro, worn by the long ordeal of the many trials, screamed and then leaped at the throat of the woman. Seizing her by the throat, she thrust her backward and attempted to choke her. The combined strength of several deputies was required to loosen the girl's grip and to take her from the courtroom. As she collapsed into her mother's arms she cried: "Where is justice? Where is God? What am I to do?" She then pleaded with her mother to give her poison. "I cannot stand it," she cried. "I am afraid. The whole world is against me."

Fearing further violence, Mrs. Mazurka was removed to one side of the courthouse and Miss Schiro to another. The girl broke away from her mother and ran screaming into the courtroom several times.

CHILD IS ELECTROCUTED

PORTLAND, Ore., June 22.—The 18-month-old child of Mr. and Mrs. Roy O. Powers of this city met instantaneous death here when she touched an electric iron. The child was scalding on a metal heat register installed in the floor of the room at the time.

San Francisco, June 22.—When the case of Mrs. Marion Cooper, who charges that the principal burned 4-year-old Carroll Cooper, her son, on the wrist with a fork as punishment for taking matches.

Attorney Edward Queen, counsel for Mrs. Lyle, states the trial will reveal that the entire matter is being treated too seriously and that the evidence will show Mrs. Lyle touched the heated fork to her own hand to test its heat before applying it to the child's arm. Queen states that all of the pupils are attending the school as usual, excepting the two Cooper children.

Man Robs Son to Buy

Narcotics, Wife Says

How Edward Gilligan, now in the city jail, obtained money for his son Philip, 14, who sold papers, and sold the clothing of his five children so he could satisfy his craving for drugs, was the claim of Mrs. Louise Gilligan to Judge George J. Sturtevant today in her suit for divorce. Mrs. Gilligan said her husband would take narcotic addicts to the house, where they would inject the narcotic into their veins before he left.

The court granted Mrs. Gilligan an interlocutory decree, with custody of the children and \$50 a month alimony, although she expressed doubt that she would ever be able to collect the allowance.

Asked to Pitch Hay,

She Says; Divorced

Mis-treated as she claimed by her husband, who she said never took her to amusements or allowed her to visit friends and relatives, but wanted her to stay on the farm near Dixon and work even to pitching hay, Mrs. Catherine Chave, 1027 Twenty-fourth street, has been granted a divorce. She left Edward Chave, her husband, after he dragged her from bed because she had not sewed buttons on his coat, she testified. Mrs. Chave was also given custody of three children and \$20 a month alimony. The decree was granted by Judge George A. Sturtevant.

Boathouse Meet Will

Plan Pilgrim Honor

Plans for a Pilgrim Tercentenary celebration in Oakland to honor the landing of the Pilgrims in Massachusetts in 1620, will be made at a meeting of representatives of commercial, civic and fraternal organizations in the municipal boathouse on Lake Merritt Friday noon. The Oakland recreation department makes the call. Preliminary ideas include a joint celebration on Thanksgiving Day.

Anniversary Mass to

Be Sung for Priest

An anniversary solemn requiem mass will be celebrated tomorrow morning at 10 o'clock in St. Patrick's church, Tenth and Peralta streets, in memory of the late Rev. Maurice J. Barry, Rev. T. J. O'Connell will be the celebrant. Rev. M. J. Crotty will be the deacon and Rev. P. J. Flynn sub-deacon. The services will be augmented with a select choir with Miss Rose Walsh as organist.

INCREASE ASKED  
IN BUDGET FOR  
TEACHERS' PAY

Provision in the approaching tax levy for \$235,300 for salaries and increase for elementary school teachers and janitors, including \$370,000 for increases to elementary teachers, will be asked of the city council under recommendations of the budget committee of the board of education, adopted last night.

The total asked will be an increase of \$450,000 over the \$156,300 paid from city funds for maintaining the present salary schedule in the elementary schools during the fiscal year, and will mean a tax increase for school purposes from 10 cents to 40 cents on the \$100.

FIFTY TEACHERS

The new rate asked for includes, besides the amount paid during the present year, \$90,000 for fifty additional elementary teachers at the present salary schedule, \$30,000 to allow the increase of \$420 in the salary of all members of the elementary teaching force in accordance with the campaign, and an additional \$20,000 to provide funds for maintaining a salary schedule for assistant school custodians from \$125 to \$150 a month and for head custodians from \$150 to \$175 a month.

According to an accompanying explanatory statement by the budget committee, the request was made necessary by the inadequate support afforded to elementary schools by the state by the present state laws, evidenced by the campaign now being waged to increase the revenues available to elementary schools.
